

FULLY.AUTOMATIC.EDGE.CARTON.SEALER

CSE-500A (Top & Bottom Drive Type)

This top drive and bottom drive automatically edge sealer for box works in conjunction with the CS-500TSA automatic carton sealer for random sizes of box or CS-500TS uniform size carton sealer. First the carton is sealed on the center line of the top and bottom of the carton, then the carton is pushed off at 90 degrees into the edge sealer where it completes the "H" seal top and bottom. This top and bottom belt driven carton sealer is recommended for taping various profile such as higher, wider profile cartons which is built for dependable performance and easy operation.

Features:

- Automatically adjust the height and width according to different sizes of carton
- Top & bottom drive belts
- Interchangeable top bottom tape cartridge
- 2" top and bottom taping head
- Tape tension easily adjustable
- Roller working table
- Blade safety guards
- Self adjusting bottom-belt drives for case-width
- Side mounted compression rollers for tight seals
- Leg height adjustment 200mm (8")
