

PORTABLE.HANDHELD.HEAT.SEALER

HP Series (Constant Heat Type)

The HP Series is a portable welding clamp used for sealing aluminum, nylon, paper, laminated film bags / sacks. This device is designed with a small or compact size and is a light-weighted device that results to a more easy carriage. The HP Series is available in 3 sizes that are HP-200, HP-300 and HP-400. These devices has a seal length ranging from 200 mm up to 400 mm and has a seal width of 15 mm.

Standard Features:

- Adjustable heat sealing temperature with indicator light.
- Both sealing jaws are permanently heated
- Teflon coating sealing jaw.
- Compact & light weight design for easy mobile operation.
- Suitable to seal major laminated films, aluminum foil, nylon laminated film and paper composite film.
- Plier type design for perfect grip, fits snug in the hand.

Applications:

- Large Size Equipment Repacking
- Extend storage period for packed goods.
- Pouch Materials = Aluminum Foil and Laminated Films.

Optional Upgrade:

- Heat Safety Cover
