

AUTOMATIC.SLEEVE.WRAPPING.SYSTEM.

Sleeve Wrapper (SWM Series) Side Pusher Type

The SWM series sleeve wrapping machine is a sideway pusher type and equipped with free rollers for product conveying. It is designed to provide flexibility to sleeve wrap products with tray and trayless packs. The sleeve wrapping machine has the flexibility to work on demand and so can be fed either by an operator or directly from another conveyor. Products are physically pushed through PE film for sleeve wrap, sealed and shrink wrapped. The sealing system is equipped with high performance impulse sealing.

Industries:

- Soft Drink
- Beverage
- Can Products
- Dry Food
- Wholesale Trade
- General Merchandise

Features:

- Semi-automatic sleeve bundling
- Entry level sleeve wrapping machine
- High performance impulse sealing system
- Side infeed collection conveyor (gravity rollers type)
- Adjustable sealing time and cooling time
- Easy changeover for different type of products
- Easy sealing element and Teflon tape replacement
- PLC control system
- Motor drive film feed system
- Emergency reset system
